

# Stop Loss Outlier States Are At Risk for Overpayment

- Itemized bill review
- 40% average savings on every bill
- 100% guarantee on our savings

Outlier rules in certain fee schedule states mandate that bills at predetermined thresholds be paid at a percentage of total billed charges instead of the normal fee schedule rate. Melody™ ensures payers are not overpaying.

## Manipulating the System

Providers take advantage of outlier rules by using inflationary billing tactics to increase prices and secure higher payments. Payers unknowingly lose millions of dollars annually through this problematic loophole.

## Exposing Overcharges

WellRithms uncovers the abusive billing practices to ensure the allowed charges are accurate. Allowed charges are significantly reduced before the outlier adjustment is applied.

## What We Do

### Bundled & Denied Services

Removing services that are incidental, bundled, or inclusive to the primary procedure.

### Excessive Charges

Ensuring charges are consistent with the Hospital's reported costs submitted to CMS.

### Guarantee

With Shield Indemnification™, Health Plans never pay more – GUARANTEED!
