

# In-Network Review

Pre-Payment Solution

All Provider Types, Including:  
Outpatient, ASC, Ambulance, & Professional

## In-Network Review

Network claims are reviewed line-by-line using the Harmony™ Classification, Edits, & Review (CER) system, before PPO discount is applied.

### CLASSIFICATION

Bills are re-classified by bill type and place of service.

### EDITS

Clinical edits identify errors, duplicate services, excessive, abusive, & unlikely charges.

### REVIEW

A physician review scrutinizes to verify and confirm the treatment provided (when appropriate):

- a. was *actually* performed
- b. billed services are medically appropriate for the diagnosis and procedures provided.
- c. all services are anatomically possible.
- d. identifying implant billing abuses
- e. identifying surgical procedure billing abuses
