

# In-Network Inpatient Itemized Bill Review

Pre-payment Solution

Following National Uniform Billing Committee (NUBC) Guidelines  
& CMS' Most Current Reimbursement Manual

## OPUS™ amplifies itemized bill review through automation

In concert with the WellRithms physician review team, OPUS™ extracts data from an imaged itemized bill and maps it into Harmony™ to begin a thorough line-by-line claims review.

- Claims adjudicated 20x faster and are paid more accurately than ever before
- Scalable to accommodate high claims volume; no minimum dollar threshold for IBR
- Leverages Harmony™ CER to re-classify claims and remove services that are incidental, bundled, or inclusive to the primary procedure & include in facility capital costs
- Ensures charges are consistent with the hospital's reported costs submitted to the government
